

Initiative is at the forefront of environmentally friendly, sustainable and clean energy.

COMPANY PROFILE

INTRODUCTION

SUNSTATION Pvt Ltd is a solar services company that aims to provide affordable renewable energy to businesses and homeowners alike. Solar projects demand powerful, reliable and scalable infrastructure.

To meet these requirements, **SUNSTATION Pvt Ltd** provides project development & financing support, design & construction services, as well as O&M and complete system integration.

MISSION

Our mission is to improve customer satisfaction by improving energy utilization, lowering energy costs, and protecting the environment by offering the best quality and most affordable renewable energy power products and services.

VISION

Our goal is to become one of the top and most reputable solar energy companies, offering top-notch services and cutting-edge goods, adhering consistently to our raising standards for quality assurance and professionalism in order to gain the right to be the finest option.

OUR VALUES

Solar services deliver the best-in-class solutions to our customers.

Commitment

Our commitment derives from our drive to build strong and long term relationships with our employees and clients in order to deliver smart bespoke products and services based on our strong scientific and technical foundations.

Integrity

We ensure the highest protection to our employees and clients by representing our company honestly and by following strict confidentiality and security standards.

Integrity is one of our main motivations.

Quality

We guarantee the highest regard to quality in our work. Our engineers are experienced professionals with demonstrated technical excellence who are able to tackle our industry's challenges head on.

Respect for Our People

We greatly value all individuals connected to us including our employees, subcontractors and vendors.

Customer Satisfaction

We believe in maintaining the best standards of service by not just meeting customer expectations but exceeding them.

OUR SERVICES

We provide a one stop solar solution to the customer, especially for fast track project implementation. Key aspects are conceptual design, engineering and procurement.

We provide state of the art services/ end to end solution in the following fields

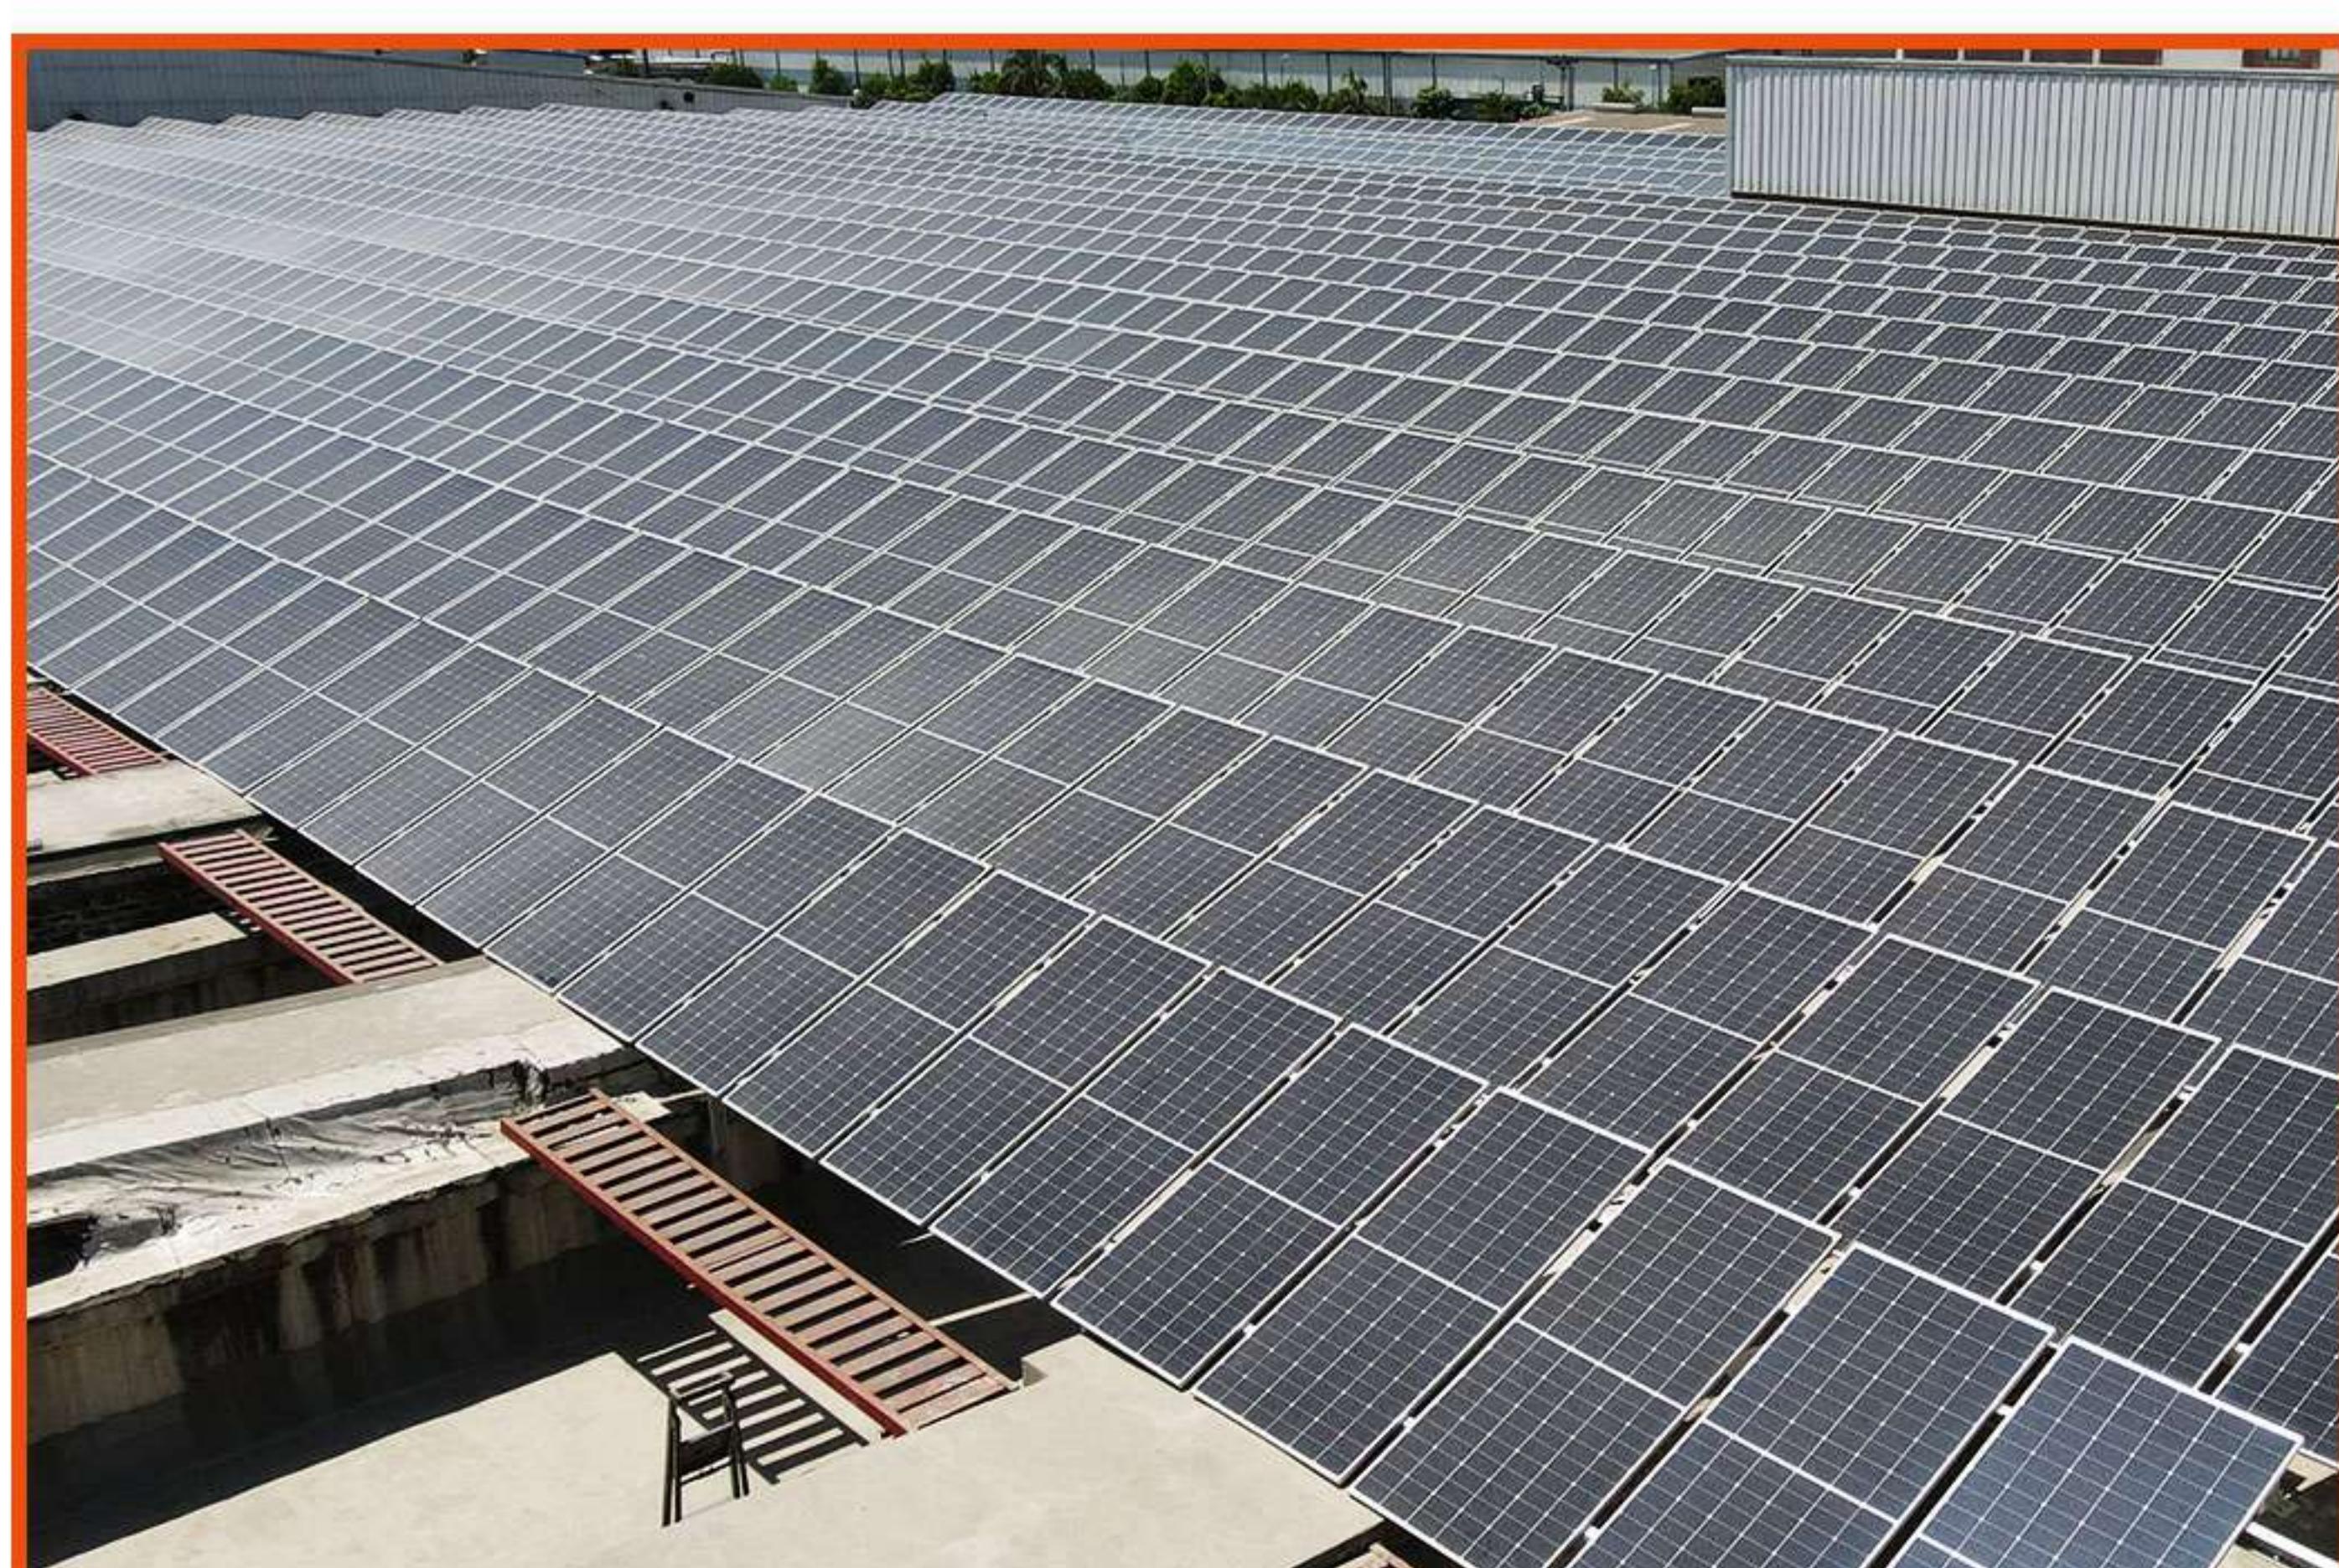

- Off Grid solar system with backup
- Hybrid solar system with backup
- Solar water pumping
- Solar integrated street lights
- Consultancy services

WHY SOLAR?

Why Go Solar?

ENVIRONMENTALLY FRIENDLY

Solar energy is clean, renewable and abundant. Unlike fossil fuels, solar energy does not generate harmful carbon emissions and other greenhouse gases that contribute to global warming.

DEPENDABLE ELECTRICITY

Store excess energy generated during the day and make it available when you need it, even during grid outages.

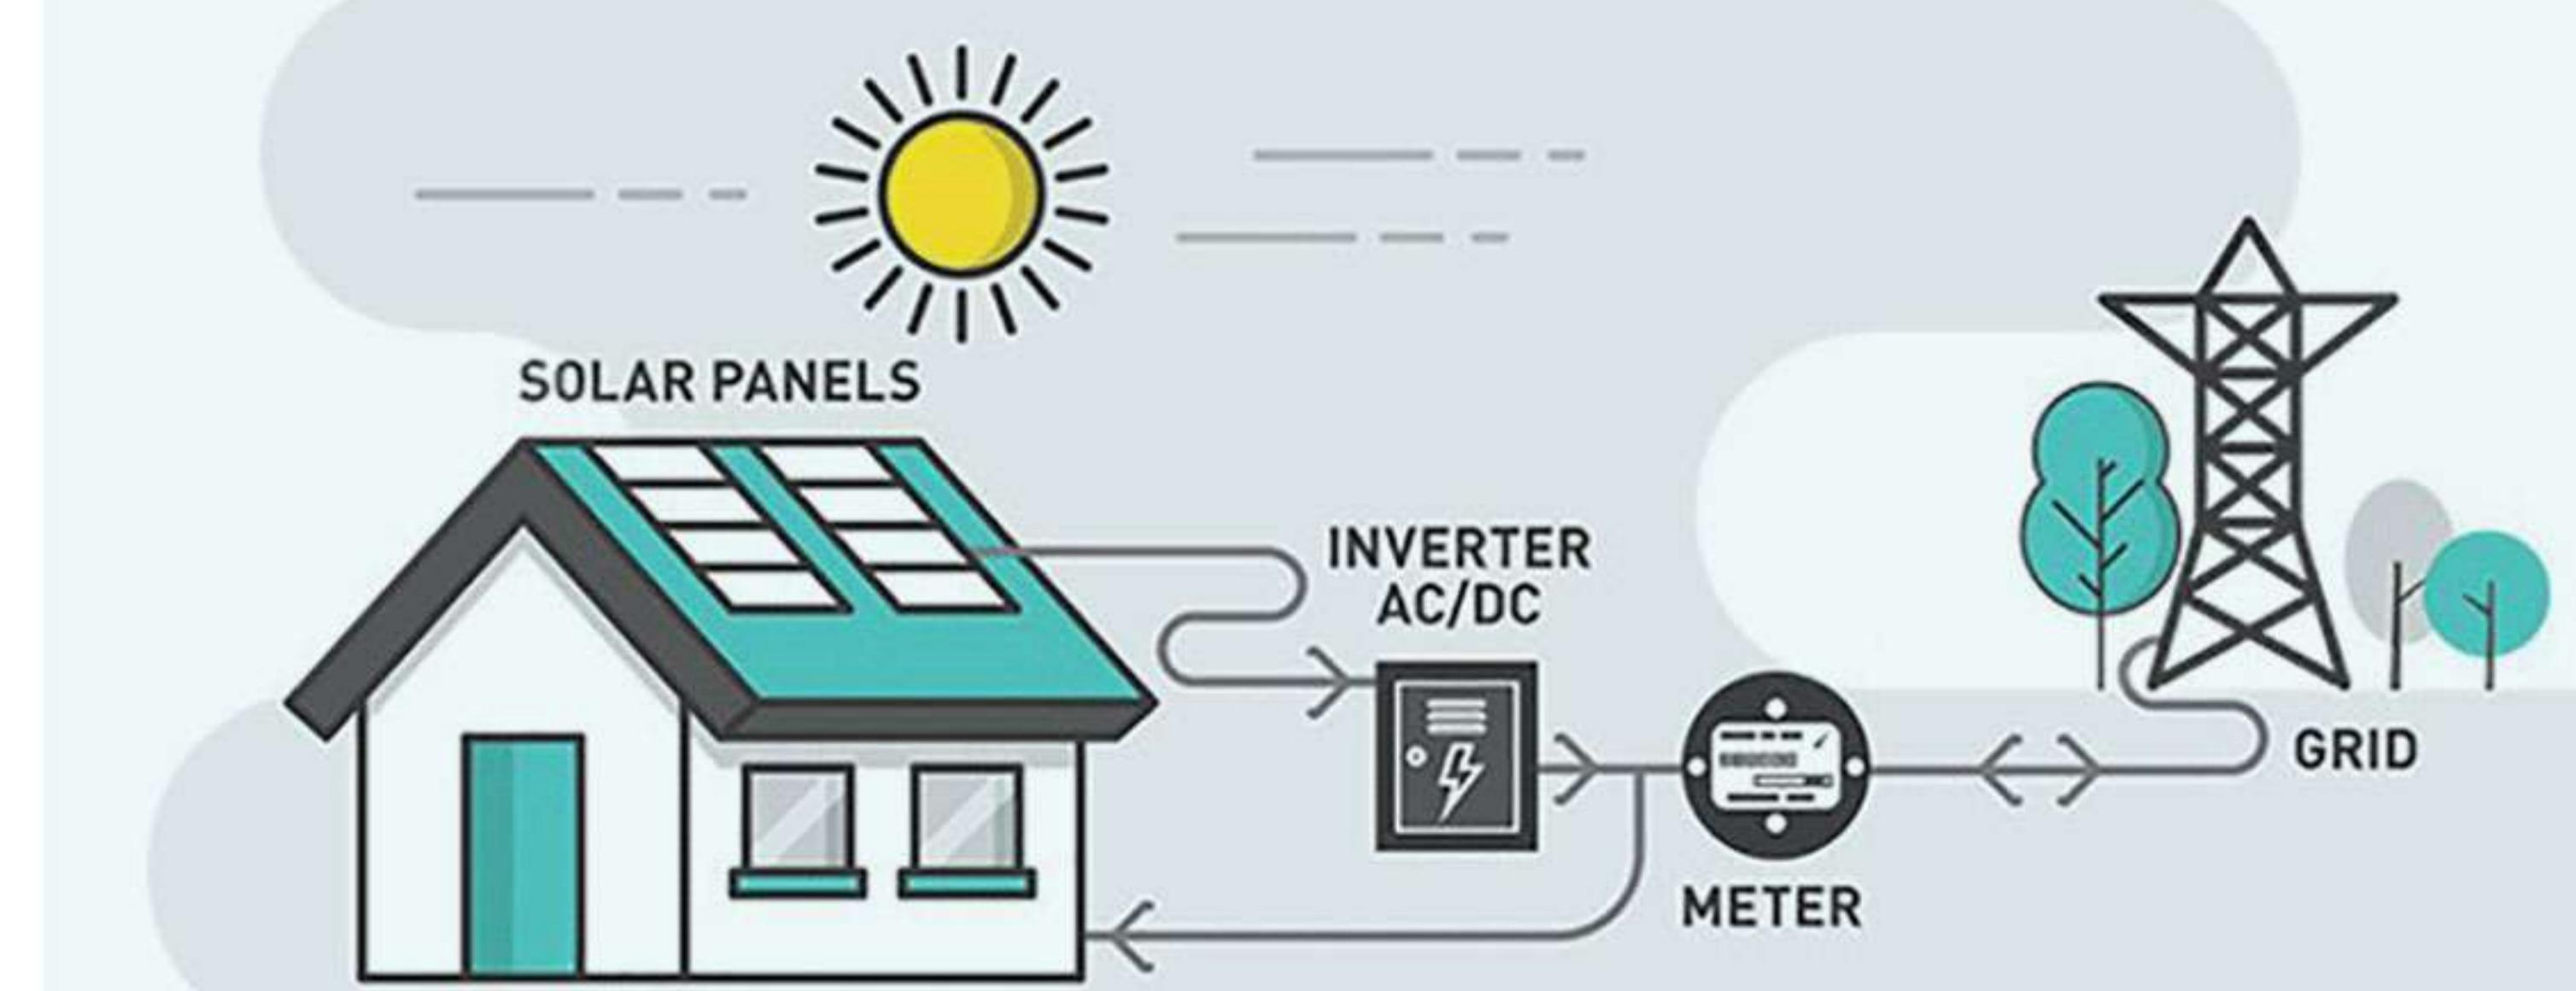

DECREASING GLOBAL PRICES OF SOLAR PRODUCTS

Solar prices have plummeted low enough to make photovoltaic the cheapest source of electricity around the world – undercutting fossil fuels in price even before counting costs like air pollution and climate change.

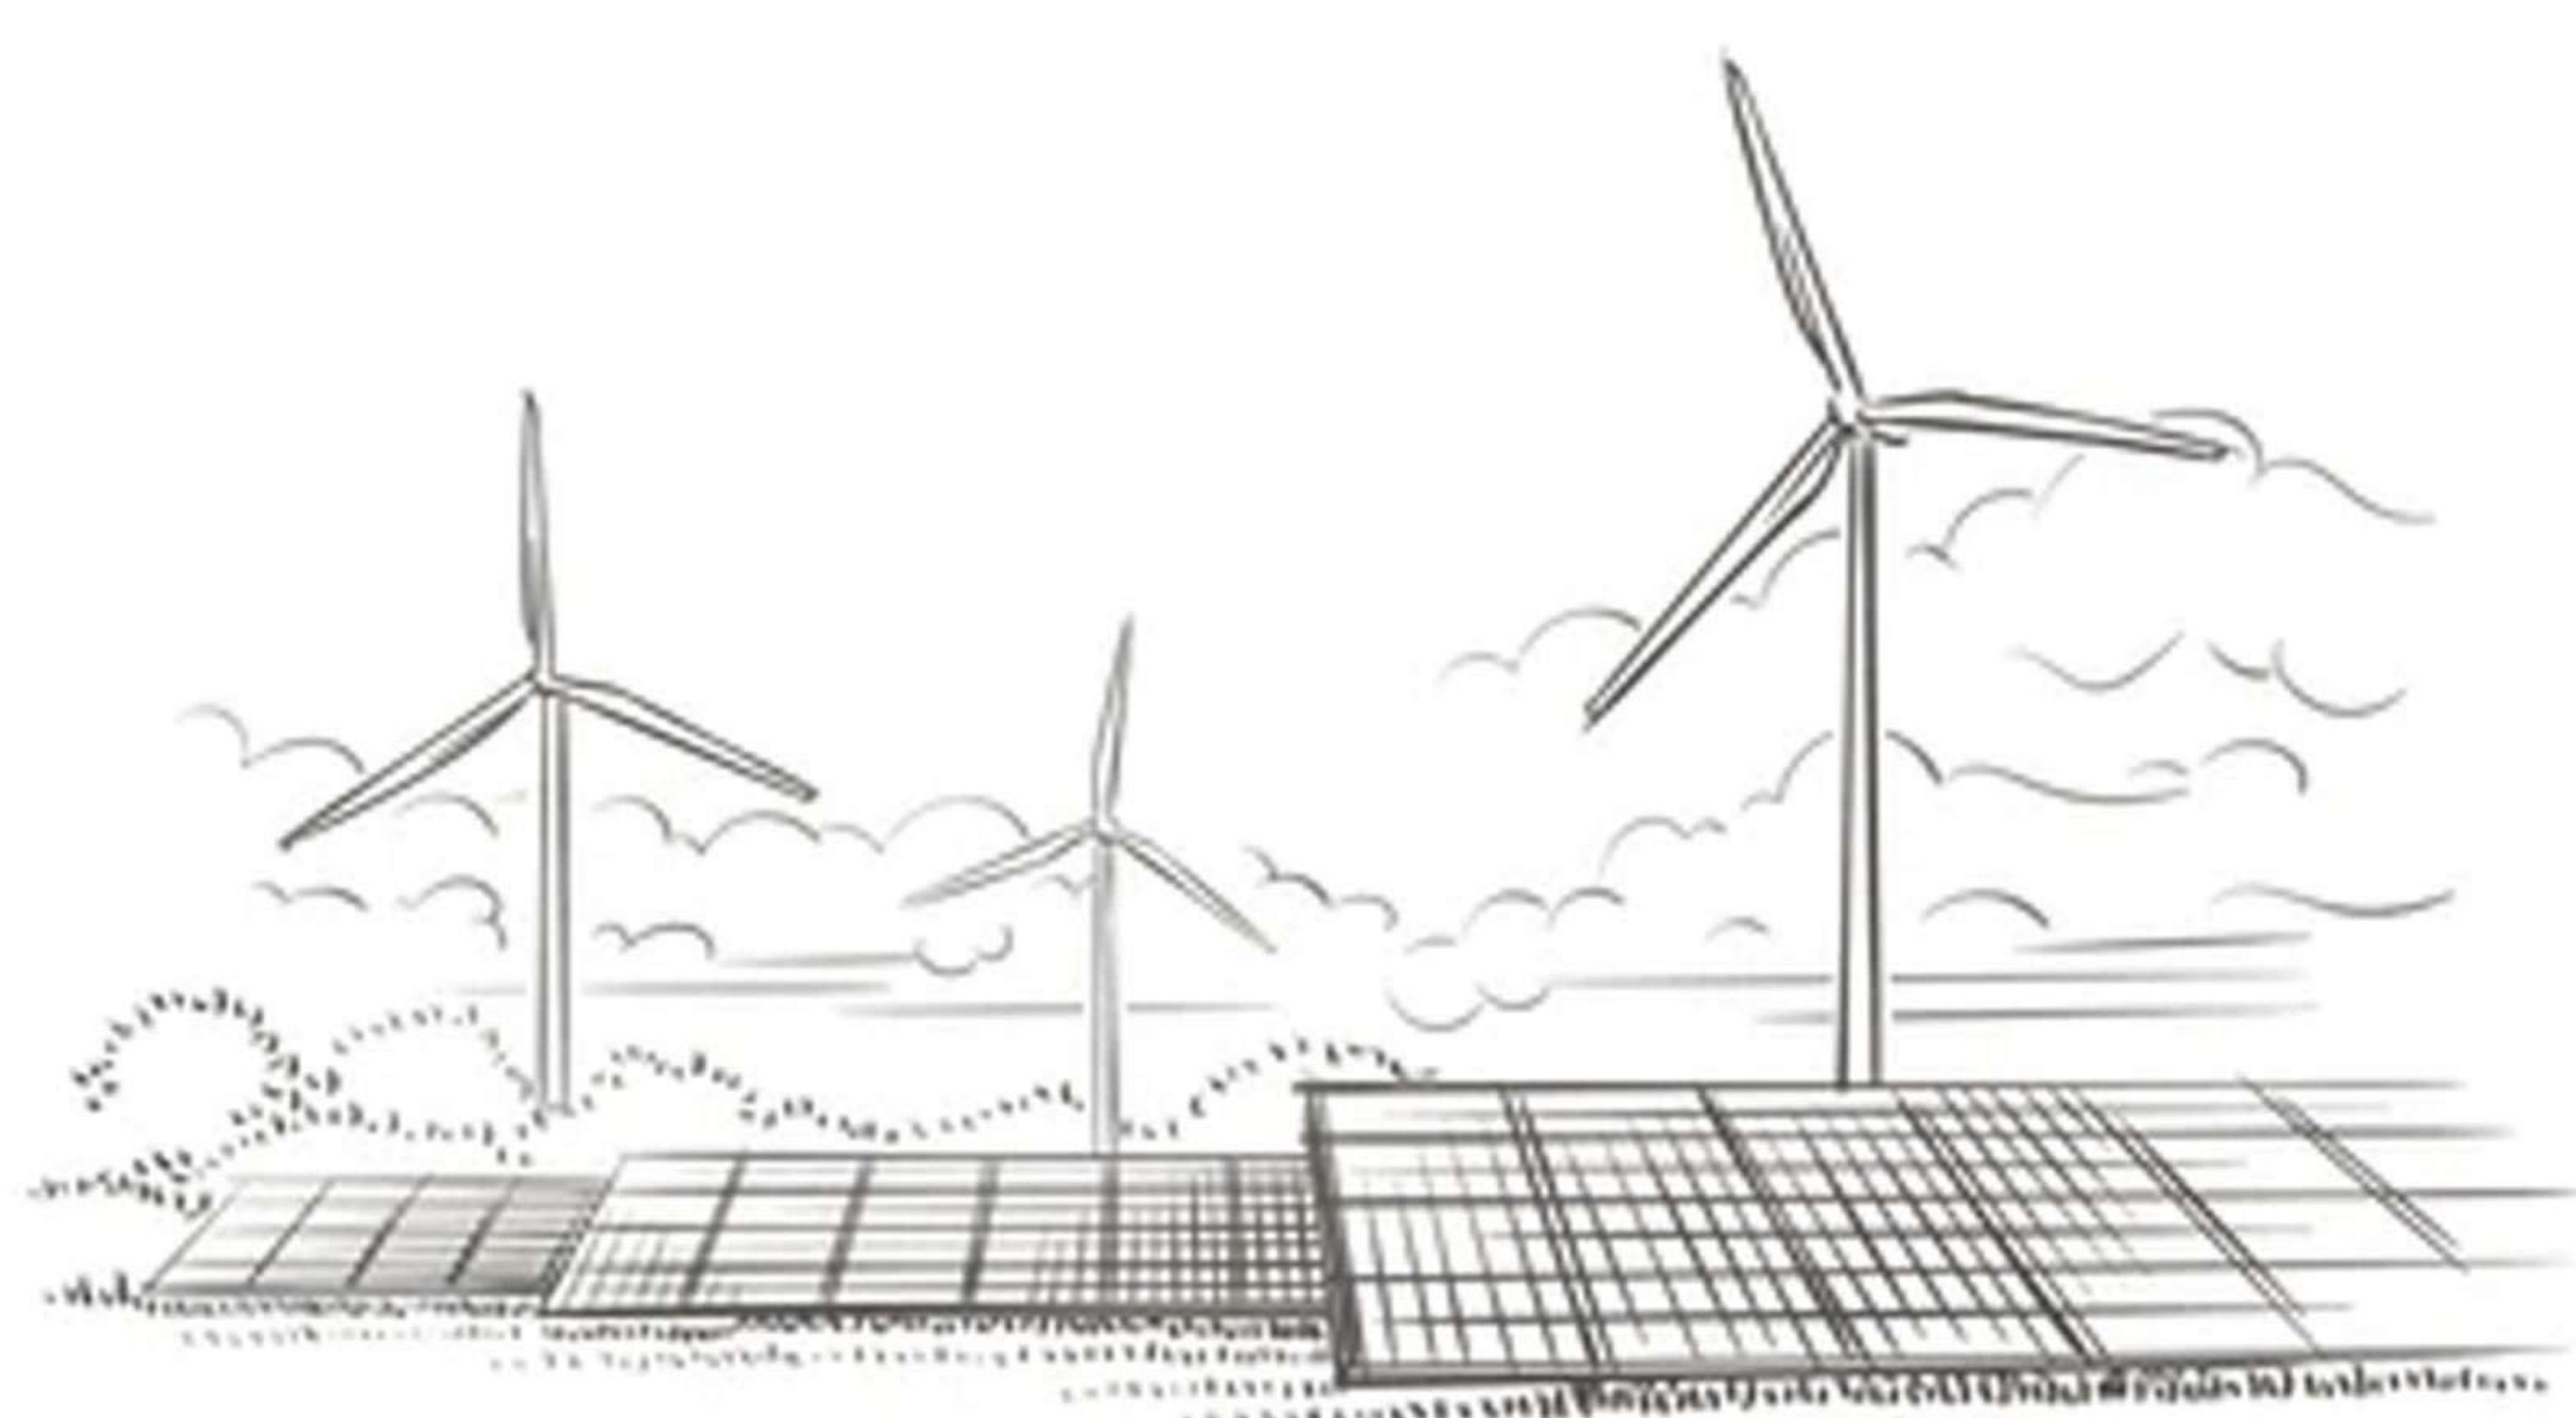

SUCCESSFUL IMPLEMENTATION OF NET METERING

Another phenomenal game changer for the solar market is the successful implementation of net metering. Through net-metering we can SAVE - GENERATE - EARN.

IDEAL PAYBACK & ROI

Solar systems typically have a payback period of 3 - 6 years, based on system size and financing solution utilized. After the back bank, all financial benefits and savings contribute significantly and directly to your ROI.

WHY CHOOSE US?

BEST ENERGY SOLUTIONS:

SUNSTATION Pvt Ltd has experience in designing, building, and engineering of solar plants that are customized to each customer's unique needs and requests. We pride ourselves in offering the most technically suitable solar panels, inverters, and packages to ensure they are efficient and have measurable outcomes.

END TO END SERVICES:

SUNSTATION Pvt Ltd is an all-in-one full-service solar energy provider. From initial inquiry through to the installations of the system, everything is handled by our trained professional staff so that you can get the best out of your investments.

WARRANTIES:

Purchasing a Solar System can be a big investment, and you want the comfort of knowing that you are in good hands. SUNSTATION Pvt Ltd only works with TEIR 1 companies across the globe and provides industry-leading warranties direct from the manufacturer. Furthermore, SUNSTATION Pvt Ltd keeps excess inventory of all core parts in stock for quick replacement in case of a warranty claim.

SOME OF OUR PROJECTS

SUNSTATION serves customer throughout Pakistan, with a focus on rural and off-grid communities, as well as commercial and industrial customers seeking to reduce their energy costs and environmental impact. We are committed to expanding access to solar power in Pakistan and promoting the growth of the renewable energy industry in the country.
